PERFORMANCE

# ABOUT US

Sparesto solutions is a trusted procurement and supply partner with over 25 years of expertise in the wind Industry. We specialize in Sourcing and deliver high-quality industrial spares and equivalent materials providing reliable, efficient and cost-effective solutions tailored to customer needs.

- **Extensive Procurement Experience**  
across OEM's / Renewables
- **Strong Vendor Network**  
(Domestic & International)
- **Quick Turnaround & Speedy Delivery**
- **Quality -Driven & Customer Centric Approach**

# OUR SERVICES

## STRATEGIC SOURCING & PROCUREMENT

Supplying Critical Spares for efficient Operations of Wind Turbines.

## SUPPLY OF INDUSTRIAL SPARE PARTS

High Quality Spares for a wide range of OEM applications.

## EQUIVALENT & ALTERNATIVE PRODUCT SOLUTIONS

Cost effective solutions without compromising its quality and performance.

## VENDOR IDENTIFICATION & DEVELOPMENT

Access to reliable global vendors and continuous vendor development.

## COST OPTIMIZATION & SUPPLY CHAIN SUPPORT

Reduce costs and improve efficiency across your supply chain.

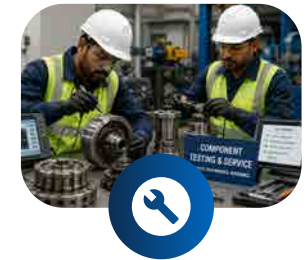

## MANPOWER SUPPLY

Skilled and reliable workforce to support your project and operational needs.

## E-AUCTION

Transparent, competitive and efficient solutions through a secure and user-friendly digital platform.

## COMPONENT TESTING & SERVICING

End-to-End Solutions for WTG Component Testing, Repair, and Reliability.

# OUR PROCUREMENT PROCESS

A structured approach, transparent process, efficient execution and reliable service.

## 01 PLAN

Understanding your requirements in detail and planning the right procurement strategy.

## 02 SOURCE

Sourcing from trusted global vendors to ensure quality and competitiveness.

## 03 VERIFICATION

Robust quality and technical evaluation to ensure reliability and compliance.

## 04 DELIVERY

Efficient delivery with comprehensive documents.

# INDUSTRIES WE SERVE

## WIND ENERGY

Reliable spares,  
reduced downtime  
and enhanced  
performance.

## MANUFACTURING & HEAVY ENGINEERING

Supporting  
manufacturing  
excellence with  
high-quality industrial  
components.

## POWER & ENERGY

Reliable solutions  
for power  
generation and  
energy  
infrastructure.

## INFRASTRUCTURE & INDUSTRIAL PROJECTS

Enabling  
large-scale projects  
with timely and  
dependable supply  
solutions.

## WHY CHOOSE US

### 25 YEARS OF PROVEN EXPERIENCE

Over 2.5 decades of expertise in procurement and supply solutions.

### QUALITY-DRIVEN APPROACH

Committed to providing high-quality, reliable and tested products.

### COMPETITIVE PRICING

Delivering the best value through cost-effective sourcing strategies.

### CUSTOMER-CENTRIC SOLUTIONS

Tailored solutions that meets unique business requirements.

### COMMITMENT TO TIMELY DELIVERY

A strong logistics and vendor network ensures consistent on-time delivery.

# MANPOWER SUPPLY FOR WIND

Providing skilled manpower solutions for wind turbine installation, operation, maintenance and technical support services.

## SKILLED WIND TURBINE TECHNICIANS

Qualified and certified technicians for installation, inspection and troubleshooting.

## MAINTENANCE & SERVICE SUPPORT

Expert workforce for PM, Breakdown support and Optimisation.

## SITE OPERATIONS WORKFORCE

Reliable workforce for on-site operations, logistics, and field support.

## SAFETY AND COMPLIANCE EXPERTS

Skilled in HSE practice for safe and reliable wind turbine Operations.

## EXPERIENCED WIND ENERGY TEAMS

Delivering long-term value with experienced teams dedicated to wind energy excellence.

## OUR VISION

To be a trusted global partner in procurement and supply solutions, delivering high value through expertise, reliability and innovation.

## OUR MISSION

To provide efficient, cost-effective and high-quality sourcing solutions that support our clients' operational excellence and long-term growth.

# MATERIAL REFURBISHMENT SERVICES

---

Specialized refurbishment solutions for wind turbine critical components, absolute units and major equipments.

---

## Services include:

- Electrical System Refurbishment
- Mechanical Component Restoration
- Hydraulic System Support
- Control System Repair & Testing
- Inspection & Performance Testing
- Life Extension of WTG Components

Delivering reliable, quality-driven and cost-effective refurbishment solutions for renewable energy operations.

# E-AUCTIONS OF INDUSTRIAL SCRAPS

Transparent and efficient E-auction solutions for Wind Turbine and Industrial Scrap Materials.

## Online bidding for:

- Lubricants
- Steel & Iron Scrap
- Copper Materials
- FRP Materials
- Electrical Components
- Surplus Industrial Assets

Supporting sourcing, recycling, disposal and value recovery solutions for renewable energy and Industrial sectors.
